

# Clemson University's Energy Innovation Center Tour

CLEMSON UNIVERSITY  
ENERGY INNOVATION CENTER

**Date:** Wednesday September 25

## Clemson University's Energy Innovation Center Tour

1253 Supply St, North Charleston SC 29405

**Time:** 3:30-4:30PM

### Networking

**Time:** 4:45-6PM

**Location:** Accent on Wine (4964 Center Pointe Dr.)

**RSVP by Sept 20! Only 20 spots available. Please send your name and company name.**

Clemson University's Energy Innovation Center houses the world's most advanced wind-turbine drivetrain testing facility capable of full-scale, highly accelerated mechanical and electrical testing. The eGRID Center houses a Grid Simulator which allows wind turbine manufacturers to test both mechanical and electrical characteristics of their machines in a controlled environment.

Come join the tour and learn all about it on September 25, from 3:30-4PM! Tour will be first hour and then we'll network with Clemson engineers at Park Circle's Accent on Wine from 4:45-6PM.

Appetizers will be provided.
